ELISA D'ANNIBALE – EUGENIO DI RIENZO, *Gli Appunti circa il Reichsministerium für Volksaufklärung und Propaganda di Galeazzo Ciano e la nascita del Ministero per la Stampa e Propaganda*

Drawing upon Ciano's notes about the German Department of Propaganda, this paper reconstructs his role as Italian Minister of Propaganda. This work focuses on the analogies with the German Department and the Ciano's role in the management of Propaganda in Italy. Ciano praised in particular the unconditional control that Goebbels had reached on the radio broadcasts and film production and he would have wanted to reach the same result. Attached is also the transcription of the complete text of Ciano's notes never published to date.
