Anno XCIV, Settembre-Dicembre 2010, Fascicolo III

## Abstracts

AURELIO MUSI, Imperi euroamericani dell'età moderna: nuove vie della storia comparata

To develop my first article, *Impero e Imperi*, published in this review, this essay analyzes *Empires of the Atlantic World* by John Elliott. Values and limits of a new comparative perspective in the research on Britain and Spain in America are discussed and critically represented. Two categories, Composite Monarchy and Spanish Imperial System are also discussed.
